

# AlliedOP

## Patient Responsibilities

1. Patients or patient caretakers are responsible to learn donning and doffing techniques relative to the device they are prescribed.
2. Patients are responsible to actively partake in the planning of their care.
3. Patients are responsible for compliance with their prescribed devices. When there is a problem or defect, the patient is responsible for notifying JGSA immediately.
4. If the patient experiences any untoward side effect(s), the AlliedOP office is to be notified.
5. Knowledge of facility hours of operation and how to contact on-call practitioners after hours for care/services.
6. To notify the branch office when a change in their third-party reimbursement coverage.
7. To take reasonable care of the devices as detailed in the AlliedOP Guidelines for Use and Care.
8. To notify the office when their physician discontinues or changes their prescribed device.
9. To take responsibility for unpaid balances not reimbursed to AlliedOP by their third-party provider.
