Frequently Asked Questions About

KNEE BRACE

Application and Care of Knee Brace

1. Your brace was designed specifically for your injury. It will control the ligament of your knee to prevent further damage.
2. The brace may restrict motion in your knee. This is a normal sensation. Remember we are trying to control the knee.
3. Our practitioners will show you how to apply the brace and give you instructions. Read these instructions carefully, and always wear the brace according to your physician's recommendation.
4. The brace is made up of foam, Velcro straps, plastic or metal. Wash the brace with a damp cloth and mild soap.

Patient Information

Report promptly to your doctor any prolonged or sudden pain, swelling of knee/leg. If any of the above occurs remove brace.
